PERFORMANCE BRAKE SYSTEMS

CRYO-TEMPERED ROTORS

POWER SLOT
CRYO LABORATORIES
CRYOGENICALLY TREATED

The untreated rotor on the left developed heat checks (small fractures) from sustained extreme high temperature operation. The Power Slot Cryo rotor on the right survived the same conditions with far less wear.

CRYOGENICALLY TEMPERED PROCESS

Cryogenic tempering is a one-time stress relief process that involves both cold and heat treatment of the brake rotor. When a rotor is cast and the molten iron cools to a solid form, stress patterns are distributed unequally throughout the casting. Using a proprietary computer-controlled process, Cryo treatment gradually cools the finished rotor down to -300°F , then brings it up over $+300^{\circ}\text{F}$, and finally back to room temperature. This stress-relief process permanently improves the performance and service life of all metals, from brake rotors to engine parts and gear sets.

Although not apparent to the naked eye, the benefits of a Cryo-treated rotor are significant. In applications where there is repeated heat cycling of the rotor or an extremely abrasive brake pad is used, Cryo-treatment delays the formation of heat checks on the braking surface and gives the rotor an extra level of protection against warping. Cryogenically tempered rotors are treated in-house using the latest, state-of-the-art chamber technology. All new replacement rotors can be cryogenically treated prior to shipment! Simply add "C" to the suffix.

- Power Slot (Slotted)
126.XXXXXCSL & 126.XXXXXCSR – Cryo Slotted left and right rotors
- StopTech Sportstop (Drilled and Slotted)
127.XXXXXCL & 127.XXXXXCR – Cryo Slotted/Drilled left and right rotors
- StopTech Sportstop (Drilled)
128.XXXXXCL & 128.XXXXXCR – Cryo Drilled left and right rotors
- Standard lead-time is 10 business days

STOPTECH

HIGH PERFORMANCE BRAKE SYSTEMS

- Direct replacement rotors fit stock calipers
- Reduced rotating mass
- Increased initial "bite"
- Improved wet weather response
- Increased heat capacity
- Patented floating AeroRotor maximizes cooling and durability
- Patented AeroRotor hats are specially heat treated for corrosion resistance and strength
- Cost effective performance brake upgrade

DIRECT REPLACEMENT KITS

BIG BRAKE KITS

STOPOTECH

HIGH PERFORMANCE BRAKE SYSTEMS

- Application specific Balanced Brake Upgrades
- Shortest stopping distances possible
- Improved pedal feel and modulation
- Proper integration with ABS and other vehicle dynamics control systems
- Championship winning performance
- Stiffest calipers available, include patented removable bridge
- Patented floating AeroRotor maximizes cooling and durability
- Patented AeroRotor hats are specially heat treated for corrosion resistance and strength
- Mounting studs ensure accurate caliper orientation
- DOT-compliant stainless steel brake lines
- Detailed high temperature finishes
- Touring Big Brake Kits include Power Alloy, Sport Stop or Power Slot rotors

STOPTECH

HIGH PERFORMANCE BRAKE SYSTEMS

Trophy Brake Kits for Racing

- MIL-spec hard anodizing on calipers and AeroHats® is impervious to color change or fading at race temperatures
- STR calipers are forged and weight-optimized, up to 20 percent lighter than our standard calipers
- Stiffest calipers available include patented removable bridge
- Improve pedal feel and modulation
- Combine with racing specification floating rotors to eliminate pad taper wear and provide consistent, confidence-inspiring performance
- Calipers matched to each application
- Balanced Brake Upgrades™ provide the shortest possible stopping distances.
- Proper integration with ABS and other vehicle dynamics control systems
- Patented, floating AeroRotor® maximizes cooling and durability

StopTech Trophy Big Brake Kits are proven winners in the World Challenge and Grand-Am professional road racing series'.

- Trophy Sport Brake Kits for Street include all of the above features and additionally the following:
- Calipers include high-temperature silicone piston dust boots
- Anti-rattle rotor floating hardware for street driving

Sport Trophy Big brake Kits combine racing winning heritage with world class high performance street proven features.

TROPHY BIG BRAKE KITS

POWER SLOT SPORTSTOP

- Introducing Power Alloy castings
 - Engineered performance rotor
 - Superior resistance to cracking due to thermal stress
 - Increased molybdenum content that extends reliability, service life and helps reduce NVH "noise" issues
 - Rotor material is a direct descendant of the patented AeroRotor from StopTech
- Directional curved vane designs on selected applications 
 - Improved vane design or OE equivalent on all rotors
 - Center split castings
- Direct OE replacement
- Improved wet weather response
- Increased initial "bite"
- Double disc ground for a consistent friction surface and improved pad bed-in
- Black E-Coated non-friction surfaces on "Power Alloy" rotors

Power Slot

- Slotted (126 series)
- Vac-U-Slot pattern evacuates heat, gas, and dust

SportStop

- Drilled design (128 series)
- Drilled and Slotted design (127 series)
- Drilled and Drilled/Slotted design patterns evacuate heat, gas, and dust

SPORTSTOP

A StopTech Sport Brake Kit is a complete performance upgrade system for all four corners of a vehicle's original brake system. Combining the various SportStop components all in one package, Sport Kits are the high-value choice for today's enthusiast driver.

StopTech Sport Kits Include:

- **Slotted, drilled, or drilled and slotted performance brake rotors**
- **StopTech Street Performance Brake Friction**
- **StopTech Steel Braided Brake Lines**

SPORT BRAKE KITS

STAINLESS STEEL LINES

STOPTECH

HIGH PERFORMANCE BRAKE SYSTEMS

- Firmer pedal feel
- Shorter stopping distance through shortened reaction time
- Improved pedal feel and modulation
- Includes all necessary hardware for a safe and proper installation
- Strain relief devices to reinforce end fittings
- Every line is pressure tested to 4500psi
- StopTech is a registered brake line manufacturer with the United States Department of Transportation
- StopTech stainless steel lines comply with TUV and FMVSS 106 safety standards

STOPTECH

HIGH PERFORMANCE BRAKE SYSTEMS

- Engineered performance pad
- Direct OE replacement
- Low noise and dust
- Improved pedal feel and response
- Longer pad and rotor life
- 100% positive molded for consistent pedal feel and performance
- Scorched to promote faster bed-in
- OE style anti-squeal shims to manage noise
- High MOT "Max Operating Temperature"
- Consistent coefficient of friction throughout the operating temperature range

Recommended Use

- Street, autocross and light track use

STREET PERFORMANCE PADS

How to Use the Power Slot / SportStop Parts Numbering System

The SportStop Parts numbering system is specifically designed to easily identify both the type of part and, with the exception of friction group products, the type of vehicle the part fits. The SportStop numbers follow this pattern:

XXX . XXXXX

For all product groups, the first three (3) digits (**xxx . xxxxx**) are the part number prefix, which identifies the product group. Please refer to the following page for a complete listing of Brake System Product Groups.

With the exception of friction group products, the next two (2) digits (**xxx . xxxxx**) represent the vehicle make. The final three (3) digits (**xxx . xxxxx**) represent the specific part number.

For Friction Group Products, SportStop references the industry standard FMSI 'D' number for pads in its numbering system. Following the same pattern as above, the first three (3) digits (**xxx . xxxxx**) are the part number prefix which identifies the friction compound. Please refer to the Brake System Product Groups for a complete listing of these compounds. The next four (4) digits (**xxx . xxxxx**) are based on the FMSI 'D' number. The fifth (5) digit (**xxx . xxxxx**) represents a variation in the brake pad design, such as pad thickness or sensor difference.

Please see the following examples as a general guideline:

126.45071 This part number is identified as a Slotted Brake Rotor (126) for a Mazda (45).

977.39003 This part number is identified as a Stage 2 Kit w/ Slotted Rotors (977) for a Volvo (39).

309.03940 This part number is identified as a StopTech Street Performance Brake Pad (309) to FMSI D394 (0394) pad shape. Similarly, in the part number 106.09741, the part identifies a Severe Duty Brake Pad for an FMSI D974 pad shape, but with a thickness variation from the 106.09740.

950.34005 This part number is identified as Stainless Steel Brake Line Kit (950) for a BMW (34).

FMSI® and FMS® are registered trade marks of the Frictions Materials Standards Institute, Madison, CT, U.S.A., and the proprietary part numbering system is owned by FMSI.

Stainless Steel Brake Line Part Numbering Notes

It is possible to order StopTech SportStop stainless steel brake lines correctly ONLY by following the listings in this SportStop catalog.

Centric OE replacement brake line part numbers begin with 150. StopTech SportStop stainless steel brake line part numbers begin with 950. Nevertheless, it is NOT possible to generate a correct part number simply by replacing the 150 prefix (150.xxxxx) with a 950 prefix (950.xxxxx).

Though both are flexible brake hoses and perform basically the same function, 150 and 950 part numbers are NOT similar classes of product in the way a 105.06090 brake pad and a 104.06090 brake pad are similar. Just as there is a 120.47024 and a 140.47024, and both are parts for Subaru vehicles, 150 and 950 part numbers must be considered to be completely different types of product. It would only be by coincidence that similar part numbers applied to the same vehicle.

Slotted, Drilled, and Drilled *and* Slotted Rotors

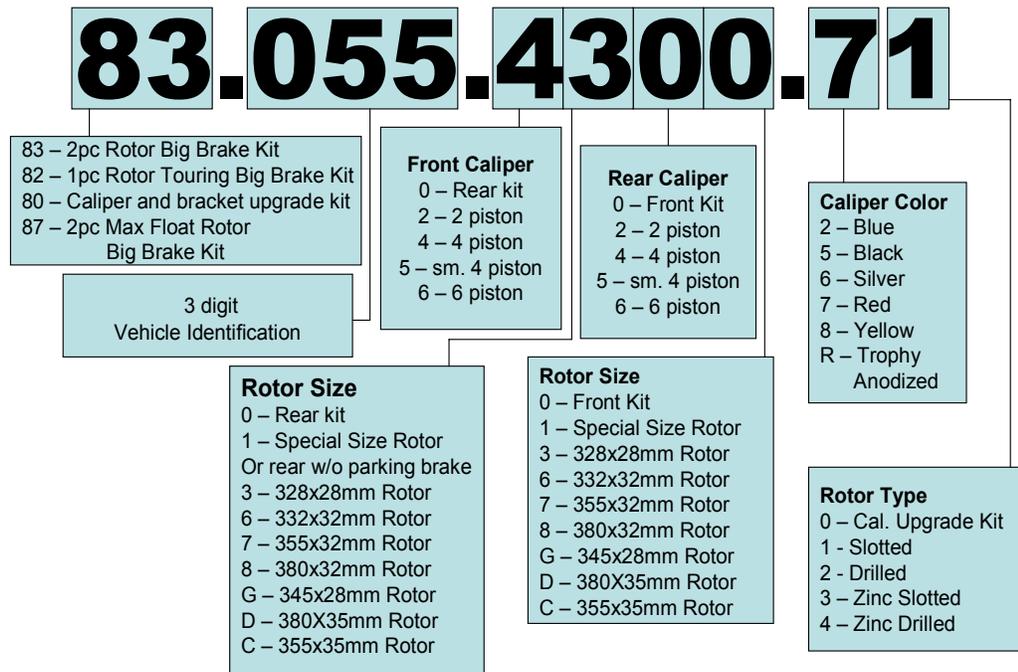

SportStop rotors are not StopTech AeroRotors. SportStop direct replacement rotors fit stock calipers and have vane designs identical to those of original equipment rotors, with drilling and/or slotting features added. SportStop rotors have a durable black coating on the non-swept areas of the rotor to prevent unsightly corrosion, and meet or exceed original equipment quality specifications. The machining patterns in all SportStop rotors are engineered for maximum rotor integrity, and will provide outstanding service on any street-driven vehicle. However, slotted rotors (126 series) have proven to be the most durable under severe use.

Application Notes

The following key details notes regarding special considerations for specific Stainless Steel Brake Line Kit and Stage kit applications:

- 1 = Front SS Line Kit replaces lower lines only
- 2 = Rear SS Line Kit replaces lower lines only
- 3 = Front SS Line Kit requires modification
- 4 = Rear SS Line Kit requires modification
- 5 = Stage 2 Kit uses left rotors only

LIMITED WARRANTY AND LIMITATION OF LIABILITY

By purchasing the POWER SLOT brake components described herein and opening the accompanying box or packaging, the purchaser(s), buyer(s) and/or the ultimate user(s) expressly (1) acknowledge that they have read and understood all terms set forth herein; (2) understand and agree that the POWER SLOT brake components, whether acquired new or used, whether complete or incomplete, whether saleable or non-saleable, is taken, purchased, selected and/or acquired "AS IS" and "WITH ALL FAULTS"; (3) understand and agree that they bear all risks, including but not limited to the risk as to the quality and performance of said brake components, the risk of any and all liability arising from the use or misuse and/or correct or incorrect installation of said brake kit and/or components, and the risk of bearing the costs of repair or replacement of the subject brake components, whether in defective or non-defective condition. CWD LLC, d.b.a. "POWER SLOT," is not responsible for damage, consequential or otherwise, for equipment failure or mal-performance after installation; (4) understand that Auto Racing is a dangerous sport, and POWER SLOT products are not designed or intended for use on a racetrack.

POWER SLOT MAKES NO EXPRESS OR IMPLIED WARRANTIES, WHETHER ORAL OR WRITTEN, WHETHER TRUE OR UNTRUE AND REGARDLESS OF SOURCE, TO ANY PURCHASER(S), BUYER(S) AND/OR ULTIMATE USER(S) OF ITS BRAKE COMPONENTS, OTHER THAN AN IMPLIED WARRANTY OF FIT ON THE VEHICLE THE PRODUCT IS SPECIFICALLY DESIGNED FOR. THE PURCHASER(S), BUYER(S) AND/OR ULTIMATE USER(S) EXPRESSLY AND IMPLIEDLY AFFIRM THAT HE/SHE/THEY ARE RELYING UPON THEIR OWN SKILL AND JUDGMENT IN SELECTING AND PURCHASING THE COMPONENTS CONTAINED HEREIN AS SUITABLE FOR THEIR INTENDED USE. The purchaser(s), buyer(s) and/or the ultimate user(s) understand and agree that no officer, director, employee, agent, salesman, representative, distributor, or other affiliate of POWER SLOT has any authority to make any statement or representation contrary to the terms set forth hereinabove. Any such statement or representation is hereby effectively disavowed.

BRAKE NOISE

Certain brake pad compounds make more noise than others. Proper anti-squeal shim plates between the caliper pistons and pad backing plate help reduce the problem. Anti-squeal lubricants are also available to reduce some of the noise. Performance pads are more prone to brake squeal. The customer is responsible for any squeal-related problems due to pad selection.

BRAKE ROTOR "WARPING"

Brake rotor judder and steering wheel vibration during braking is often incorrectly attributed to thermal distortion (warping) of the brake rotor. Thermal distortion, thickness variation, brake pad material buildup and other wear-related conditions that may occur during normal or improper use of the product are expressly excluded from warranty.

CHANGES TO TERMS AND CONDITIONS

POWER SLOT reserves the right to change these Terms and Conditions at any time without prior notice, and purchaser's continued purchase of parts constitutes acceptance of those changes.

POWER SLOT is a trademark of CWD LLC. All other company or brand names mentioned in this catalog are trademarks of their respective companies.

BIG BRAKE KITS

BIG BRAKE KIT APPLICATION GUIDE

How to Specify Caliper Color & Rotor Finish

Please use the chart on the right to specify caliper color and rotor style by replacing the "xx" suffix at the end of the Big Brake kit part number with the corresponding two digit code.

EXAMPLE: 83.130.4600.XX becomes 83.130.4600.71 for red caliper and slotted rotors.

*** Additional fees apply per axle: special color Blue or Yellow Calipers, Drilled Rotors, Trophy Race and Trophy Sport**

Caliper Color	Drilled* Prefix/Suffix	Slotted
Blue*	83/22	83/21
Black	83/52	83/51
Silver	83/62	83/61
Red	83/72	83/71
Yellow*	83/82	83/81
Trophy Sport*	N/A	83/R1
Trophy Race*	N/A	87/R1

Calipers - ST-10 Parking Brake, ST-22 2 Piston, ST-40 4 Piston, ST-41 Small 4 Piston, ST-60 6 Piston, ST-65 6 Piston Modified

Unless otherwise noted, Big Brake Kits do NOT fit stock wheels. Wheel fitment templates are available at www.stoptech.com.

BIG BRAKE KIT APPLICATION GUIDE

How to Specify Caliper Color & Rotor Finish

Please use the chart on the right to specify caliper color and rotor style by replacing the "xx" suffix at the end of the Big Brake kit part number with the corresponding two digit code.

EXAMPLE: 83.130.4600.XX becomes 83.130.4600.71 for red caliper and slotted rotors.

*** Additional fees apply per axle: special color Blue or Yellow Calipers, Drilled Rotors, Trophy Race and Trophy Sport**

Caliper Color	Drilled* Prefix/Suffix	Slotted
Blue*	83/22	83/21
Black	83/52	83/51
Silver	83/62	83/61
Red	83/72	83/71
Yellow*	83/82	83/81
Trophy Sport*	N/A	83/R1
Trophy Race*	N/A	87/R1

Calipers - ST-10 Parking Brake, ST-22 2 Piston, ST-40 4 Piston, ST-41 Small 4 Piston, ST-60 6 Piston, ST-65 6 Piston Modified

Unless otherwise noted, Big Brake Kits do NOT fit stock wheels. Wheel fitment templates are available at www.stoptech.com.

BIG BRAKE KIT APPLICATION GUIDE

How to Specify Caliper Color & Rotor Finish

Please use the chart on the right to specify caliper color and rotor style by replacing the "xx" suffix at the end of the Big Brake kit part number with the corresponding two digit code.
 EXAMPLE: 83.130.4600.XX becomes 83.130.4600.71 for red caliper and slotted rotors.

* Additional fees apply per axle: special color Blue or Yellow Calipers, Drilled Rotors, Trophy Race and Trophy Sport

Caliper Color	Drilled* Prefix/Suffix	Slotted
Blue*	83/22	83/21
Black	83/52	83/51
Silver	83/62	83/61
Red	83/72	83/71
Yellow*	83/82	83/81
Trophy Sport*	N/A	83/R1
Trophy Race*	N/A	87/R1

Calipers - ST-10 Parking Brake, ST-22 2 Piston, ST-40 4 Piston, ST-41 Small 4 Piston, ST-60 6 Piston, ST-65 6 Piston Modified

Unless otherwise noted, Big Brake Kits do NOT fit stock wheels. Wheel fitment templates are available at www.stoptech.com.

BIG BRAKE KIT APPLICATION GUIDE

How to Specify Caliper Color & Rotor Finish

Please use the chart on the right to specify caliper color and rotor style by replacing the "xx" suffix at the end of the Big Brake kit part number with the corresponding two digit code.

EXAMPLE: 83.130.4600.XX becomes 83.130.4600.71 for red caliper and slotted rotors.

*** Additional fees apply per axle: special color Blue or Yellow Calipers, Drilled Rotors, Trophy Race and Trophy Sport**

Caliper Color	Drilled* Prefix/Suffix	Slotted
Blue*	83/22	83/21
Black	83/52	83/51
Silver	83/62	83/61
Red	83/72	83/71
Yellow*	83/82	83/81
Trophy Sport*	N/A	83/R1
Trophy Race*	N/A	87/R1

Calipers - ST-10 Parking Brake, ST-22 2 Piston, ST-40 4 Piston, ST-41 Small 4 Piston, ST-60 6 Piston, ST-65 6 Piston Modified

Unless otherwise noted, Big Brake Kits do NOT fit stock wheels. Wheel fitment templates are available at www.stoptech.com.

BIG BRAKE KIT APPLICATION GUIDE

How to Specify Caliper Color & Rotor Finish

Please use the chart on the right to specify caliper color and rotor style by replacing the "xx" suffix at the end of the Big Brake kit part number with the corresponding two digit code.

EXAMPLE: 83.130.4600.XX becomes 83.130.4600.71 for red caliper and slotted rotors.

*** Additional fees apply per axle: special color Blue or Yellow Calipers, Drilled Rotors, Trophy Race and Trophy Sport**

Caliper Color	Drilled* Prefix/Suffix	Slotted
Blue*	83/22	83/21
Black	83/52	83/51
Silver	83/62	83/61
Red	83/72	83/71
Yellow*	83/82	83/81
Trophy Sport*	N/A	83/R1
Trophy Race*	N/A	87/R1

Calipers - ST-10 Parking Brake, ST-22 2 Piston, ST-40 4 Piston, ST-41 Small 4 Piston, ST-60 6 Piston, ST-65 6 Piston Modified

Unless otherwise noted, Big Brake Kits do NOT fit stock wheels. Wheel fitment templates are available at www.stoptech.com.
